ACADEMIC PROJECT

- **AlumniEcho: University Alumni Connect Platform** [GitHub](#) [Live Site](#)
 - Developed AlumniEcho, a MERN-stack alumni networking platform using JWT authentication and RESTful APIs.
 - Designed and implemented a responsive UI using React.js, enhancing user engagement and accessibility.
 - Managed MongoDB schemas for users, messages, and job listings, ensuring optimized data handling.
 - Integrated modular backend services with Node.js and Express.js, improving performance.
 - Deployed the frontend on Vercel and backend microservices on Render for scalability and reliability.
- **Personal Portfolio Website** [GitHub](#) [Live Site](#)
 - Designed and developed a personal Portfolio Website using the MERN stack to showcase projects, skills, and professional background.
 - Implemented a dynamic and responsive frontend using React.js and Bootstrap, ensuring seamless navigation across devices.
 - Integrated backend with Node.js, Express.js, and MongoDB for contact form and project data management.
 - Deployed the website on Vercel with continuous updates and version control using GitHub.
